SKILLS

- **Languages**: C++, C, Python, Java
- **Frameworks**: HTML and CSS
- **Tools/Platforms**: MySQL, VS Code, Git, GitHub, Blender, Excel, Power BI, AWS (EC2, S3, VPC), Docker, Kubernetes
- **Technical Skills**: Machine Learning, DSA, Computer Networks, DevOps, Cloud Computing, 3D Modelling, 3D Animation, OOPs
- **Soft Skills**: Problem-Solving, Team Work, Adaptability, Time Management, Punctuality

PROJECTS

- **Data Analysis - Exploratory Data Analysis on Air Quality**: | GitHub Apr 25
  - Executed a comprehensive Exploratory Data Analysis (EDA) on global air quality data sourced from the WHO, focusing on temporal and geographic trend identification.
  - Visualized complex datasets using Python's Matplotlib and Seaborn to generate descriptive statistical plots (bar charts, box plots, scatter plots), effectively communicating correlations and outliers.
  - Analyzed key environmental factors by employing advanced data wrangling techniques (Pandas), yielding actionable insights into pollution patterns for potential public health strategies.

  Tech: Python (Pandas, Matplotlib, Seaborn), Jupyter Notebook
- **Customer Churn Analysis & Prediction**: Dec 25
  - Cleaned and transformed raw telecom data using SQL Server, handling null values and creating optimized views for downstream analysis.
  - Developed a Random Forest machine learning model in Python to predict churn probability, achieving ~86% accuracy.
  - Designed a 2-page executive dashboard featuring KPI cards, churn drivers, and geographic analysis using DAX and Power Query.

TRAINING

- **Lovely Professional University – Data Structures and Algorithms** Jun 25 – Jul 25
  - Completed intensive training focused on mastering fundamental and advanced Data Structures (DS) and Algorithmic paradigms
  - Built responsive and user-friendly Java Application showcasing practical implementation using data structures and algorithms (Arrays, HashMap, Queue, Dijkstra Algorithm)
  - Gained hands-on experience in Git, GitHub, and version control

CERTIFICATIONS/CERTIFICATES

- Generative AI Professional | Oracle Certificate Oct 25
- Mastering Data Structures and Algorithms | LPU Certificate Jul 25
- Cloud computing | NPTEL Certificate Apr 25

EXTRACURRICULAR ACTIVITIES

- Mind Over Matter Analytics Club - Member Sep 25 – Present
- Together We Can Foundation - Community Development Volunteer Jul 24
- HackWithVertos - 24 hr. Hackathon Feb 24

ACHIEVEMENTS

- **Solved 220+ Coding question:** Jan 25
  Consistently solved DSA Problems with 150+ days streak on LeetCode

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.49*** *2023 - Present*
- **Army Public School** Dehradun, Uttarakhand
  Intermediate; ***Percentage: 94.4%*** *2022 - 2023*
- **Army Public School** Dehradun, Uttarakhand
  Matriculation; ***Percentage: 95.2%*** *2020 - 2021*
